ANNEXE 2
TARIFS DES FORFAITS TECHNIQUES

Les modalités pratiques de facturation et de règlement du forfait technique auquel sont appliquées la dispense d'avance des frais et l'exonération du ticket modérateur sont fixées par une convention conclue au niveau local.

Le montant du forfait technique varie en fonction de l'année d'installation de l'appareil, c'est-à-dire l'année civile pendant laquelle a eu lieu la visite de conformité (prévue par l'article L. 712-12 du code de la santé publique), de la classe à laquelle appartient l'appareil autorisé (appareils de scanographie et de TEP), de la puissance du champ magnétique de l'appareil autorisé (appareil d'IRM) et du nombre d'exams effectués. Au-delà du nombre d'exams correspondant à l'activité de référence, un forfait technique réduit s'applique.

Le forfait technique rémunère notamment les frais d'amortissement et de fonctionnement de l'appareil. La durée de l'amortissement des appareils est calculée sur sept ans. Pour les matériels considérés comme amortis, soit installés depuis plus de sept ans révolus au 1^{er} janvier de l'année considérée, le montant du forfait technique ne prend plus en compte le coût de l'amortissement du matériel.

Pour chaque appareil, un registre chronologique doit être tenu, par année civile. Ce registre doit comporter la date d'installation et le numéro de l'appareil et mentionner, pour chaque acte réalisé et présenté au remboursement :

- son numéro d'ordre ;
- la date de réalisation ;
- les nom et qualité du médecin l'ayant effectué ;
- les nom et prénom du patient ;
- le numéro d'immatriculation de l'assuré ou, à défaut, la couverture sociale dont il bénéficie.

Pour les appareils autorisés à fonctionner et pour lesquels aucun tarif de forfait technique ne correspond à leur année d'installation, il convient d'appliquer le tarif du forfait technique le plus récent correspondant aux appareils de même classe, en respectant le seuil d'activité de référence correspondant à la région où l'appareil est installé et à la classe de l'appareil.

1. Scanographie

Pour les appareils en attente de classification, sont appliqués le montant du forfait technique et l'activité de référence correspondant aux appareils de classe 2 les plus récents, correspondant à la région concernée.
